# LOCAL LENDER

SPECIALIZING IN

2ND HOMES & WATERFRONT HOMES

## 1. We are part of the community you live in

Our children go to the same schools that your children attend. We understand the uniqueness of our community and local real estate trends.

## 2. You can't get the same service on-line

You can't get the same service online or over the phone like you can when you meet with someone face-to-face. Many questions arise during the all-important home purchase process. You need someone close by who can guide you every step of the way.

## 3. We work when you need us

People don't buy homes during banker's hours. They have questions at night and during weekends. You don't want to tell a seller that you can't complete an offer for a few days because you can't reach your lender.

## 4. Our mortgage advisors are experts

We are experts in real estate finance as opposed to someone who was trained to answer a phone at a call center. As experts, our business is referral based and our referrals come from long-term clients and trusted professionals.
